COURSEWORK

UNDERGRADUATE

Data Structures and Algorithm(C++)

Operating Systems

OOPS

Artificial Intelligence

DBMS

Computer Network

Machine Learning

SKILLS

PROGRAMMING

Java • C • C++ • Flutter • Python • SQL

HTML • CSS • Javascript • Spring Boot

Familiar:

Google Cloud • Android Development •

MySQL

EXTRA-CURRICULAR

• Cycling

• Volley ball

PROJECT

MACHINE LEARNING BASED FAKE NEWS DETECTION | ML

Mini Project

• Fake news can be propaganda against an individual, society, organization or political party.

• A human is unable to detect all these fake news. So there is a need of machine learning classifiers that can detect this fake news automatically.

WOMEN SAFETY APP | FLUTTER

Kavach Hackathon 2023

• Created Cross-Platform Flutter App

• Developed an app with SOS, safety tips, and user customization using Flutter, addressing women's safety concerns.
